Bernwode Schools Trust is a Multi Academy Trust. It is a company limited by guarantee, registered in England and Wales with registered company number 09053713 and its registered address at Churchill Road, Bicester, Oxon, OX26 4RS.

Bernwode Schools Trust Special Educational Needs and Disability (SEND) Policy

The Bernwode Schools Trust is an inclusive organisation. We take safeguarding very seriously and all of our policies are developed with a high priority on children’s safety and in the light of our safeguarding policy. All of our school policies are interlinked and should be read and informed by all other policies. In particular, the SEND policy is linked to the Child Protection, Behaviour, Anti-bullying, Medical needs and Curriculum policies.

We are part of Bicester Learning in Partnership (BLiP) which encompasses a group of 17 local primary and 2 secondary schools, working together to improve provision for children with SEND. SEN Information about each school is available from their websites and explains how the Partnership of schools supports children and parents. The website also includes a link to Oxfordshire’s Local Offer for parents and children with SEN and disabilities.

This SEND policy is written to comply with the 2014 Children and Families Act and its SEN Code of Practice together with the Equality Act 2010.

Inquiries about an individual child’s progress should be addressed at first, to the class teacher if your child attends the primary school since he or she is the person who knows the child best and your child’s Student Support Manager if they attend the

secondary school. Other enquiries can be addressed to one of the SENDCo's (Amy Wallace for Early Years to Year 6 and Ian Tweed for Years 7-13). Please make an appointment through each school's Reception if you would like to make an appointment with either of our SENDCo's/Assistant SENDCo's.

Headlines from the 2014 Code of Practice.

From September 2014:

- No more statements will be issued by the Local Authority. Statements have been replaced by Education, Health and Care plans (EHC Plans) which can be used to support children from birth-25 years.
- School Action and School Action Plus have been replaced by one school based category of need known as 'Special Education Needs Support' (SENS). All children are closely monitored, and their progress tracked each term. Those at SENS are additionally tracked by each school's SENDCo.
- There are four broad categories of SEN:
 - communication and interaction
 - cognition and learning
 - social, emotional and mental health
 - physical and sensory
- We are working more closely with parents and children to ensure we take into account the child's own views and aspirations and the parents' experience of, and hopes for, their child. Parents are invited to be involved at every stage of planning and reviewing SEN provision for their child.
- All children benefit from 'Quality First Teaching': this means that teachers expect to assess, plan and teach all children at the level which allows them to make progress with their learning. In addition, we implement some focused interventions to target particular skills.
- We have high expectations of all our children. Children on our SEN register make progress which compares well with the progress made by other children in school.

Defining SEN

The 2014 Code of Practice says that:

"A person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. At compulsory school age this means he or she has a significantly greater difficulty in learning than the majority of others the same age, or, has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools."

2014 SEN Code of Practice: 0 to 25 Years – Introduction xiii and xiv

Provision for SEN - our objectives are:

- To identify and overcome at the earliest possible opportunity, barriers to learning and participation for pupils/students with SEND; (see also curriculum and assessment policies);
- To ensure that every child experiences success in their learning and achieves to their full potential;
- To enable all children to participate in an accessible, broad and balanced curriculum which is appropriately differentiated;
- To value and encourage the contribution of all children to the broader life of the school;
- To work in partnership with parents/carers, acknowledging their importance and depth of knowledge about their child;
- To work with the Board of Trustees and Governors to enable them to fulfil their statutory monitoring role with regard to the Policy Statement for SEND;
- To work closely with external support agencies, where appropriate, to support the need of individual pupils/students;
- To ensure that all staff have access to training linked to identified needs, both on a partnership and individual school level and advice to support quality teaching and learning for all pupils/students.

Across the two schools approximately 15% of our children at Glory Farm Primary School (GFP) and 14% at The Cooper School (TCS) are at SENS (SEN support) and 2% at GFP and 2% at TCS currently have EHC Plans (Education, Health and Care Plans). This means that all teachers expect to have, and cater for, children with SEND in their classes. All teachers are fully equipped and supported to provide an inclusive curriculum for ALL children with SEND in their classes.

In addition both schools carry an Inclusion/Vulnerable Pupil/Student Register of pupils/students who, although do not meet the threshold for SEN Support, have particular needs that must be met further to the usual classroom support.

Types of SEND which we currently have in school include children with a diagnosis as well as those with learning profiles consistent with the diagnosis of:

Communication and Interaction

- Autistic spectrum and language disorders

Cognition and Learning

- Dyslexia, Dyspraxia and Dyscalculia; Moderate Learning Difficulties, Global Developmental Delay

Social, Emotional and Mental Health

- Attention Deficit Hyperactivity Disorder (ADHD), Attention Deficit Disorder (ADD), Attachment disorders, Emotional difficulties, Mental health difficulties

Physical and Sensory

- Hearing impaired, Visually impaired, Motor difficulties

Medical Needs

- Epilepsy, Asthma, Bowel disorders, Diabetes and other medical conditions

Identifying children at SENS (SEN Support)

Children with SEN are identified by one of three assessment routes, all of which are part of the overall approach to monitoring progress of all pupils/students:

- The progress of every child is monitored at termly pupil/student progress meetings. Where children are identified as not making progress despite Quality First Teaching they are discussed with the SENDCo/Assistant SENDCo and a plan of action is agreed;
- Class teachers are continually aware of children's learning. If they observe that a child, as recommended by the 2014 Code of Practice, is making less than expected progress, given their age and individual circumstances, they will seek to identify a cause. This can be characterised by progress which
 - is significantly slower than that of their peers starting from the same baseline;
 - fails to match or better the child's previous rate of progress;
 - fails to close the attainment gap between the child and their peers;
- Parents sometimes ask us to look more closely at their child's learning. We take all parental requests seriously and have a measured approach to addressing them. Frequently, the concern can be addressed by Quality First Teaching in partnership with parental support. The school will put in place appropriate strategies, personalised differentiation and/or interventions. If concerns still exist the child is placed at SENS on the SEN register. All decisions will be made in consultation with parents/carers.

The partnership of SENDCo's have a bank of assessment tools to enable schools to undertake a range of standardised tests with children. We can use these assessments to add to and inform teachers' own understanding and assessments of a child's strengths and needs.

Although the school(s) can identify special educational needs, and make provision to meet those needs, we do not offer diagnoses. Parents are advised to discuss with their SENDCo or GP, if they think their child may have: Speech and Language concerns: Dyslexia, ASD – Autism Spectrum Disorder, ADHD – Attention Deficit Hyperactivity Disorder, Mental Health concerns or some other disabilities. We can then make referrals to SENSS – Special Educational Needs Support Service, CAMHs – Children and Adolescent Mental Health Service, Educational Psychologist and others.

Issues which are not SEN:

It is important to point out the circumstances which are **not** classed as SEN, but which may affect progress and attainment:

- Disability
- Attendance and Punctuality
- Health and Welfare
- English as an additional language (EAL)
- Being in receipt of Pupil Premium
- Being a CWCF (Child We Care For – when they are looked after by the Local Authority)
- Being a child of service personnel

- Having behavioural difficulties where an underlying cause has not been identified

Working with Parents and Children

We aim to have good and informative relationships with all of our parents. If a child is experiencing difficulties, parents will be informed either at Parent Consultation Meetings or during informal meetings to discuss the child's progress. It should not come as a surprise to a parent to learn that their child is being identified as having SEN.

Once a child has been identified as having SEN, the class teacher or SENDCo/SENDCo Assistant will invite the parents/carers to a meeting to:

- formally let them know that their child is being placed at SEN Support
- discuss assessments that have been completed
- agree a plan and provision for the next term

This is part of the graduated approach cycle of 'Assess, Plan, Do, Review' required in the Code of Practice.

Depending on the appropriateness, the child may be invited to attend all or part of the meeting.

Thereafter, parents - and children - are invited to a meeting three times a year to review progress made, set targets and agree provision for the next term.

Paperwork for children at SEN Support (SENS)

Once a child has been identified as needing SEN support the following paperwork is completed:

- The pupil/student is enrolled onto the SEN register.
- 3 times a year progress is reviewed and stakeholder views recorded. The profile/plan records progress made and new actions (provision) to be completed. Also at this meeting, the pupil/student first page profile is updated.
- Actions are then implemented within the classroom setting with both teachers and teaching assistants.

Moving to an EHCP (Education, Health and Care Plan)

If children fail to make progress, in spite of high quality, targeted support at SENS, parents or the school may apply for the child to be assessed for an EHC Plan. Generally, we apply for an EHC Plan if:

- The child is Looked After and therefore additionally vulnerable;
- The child has a disability which is lifelong and which means that they will always need support to learn effectively;
- The child's achievements are so far below their peers that we think it likely that the child may at some point benefit from special school provision;

- There are a number of professionals involved with the child and it is important to formalise a shared vision for the child.

Children who we think will manage in mainstream schools, albeit with support, are less often assessed for EHC Plans. Having a diagnosis (e.g. of ASD (Autism Spectrum Disorder), ADHD or dyslexia) does not mean that a child needs an EHC Plan.

If the application for an EHC Plan is successful, a member of the Local Authority (LA) will call an 'outcomes meeting' for the child, parent and the school; together with any health or social care professionals who are involved with the family. The meeting will record the child's strengths, the wishes and aspirations of the parents as well as the barriers they face. Following the meeting, the LA will produce the EHC Plan which will record the decisions made at the meeting and state the desired outcomes with the proposed support and provision to be planned for.

Teaching and Learning

We believe that all children learn best with their peers in their class setting. Our aim is for all children to be working independently, in class, at the cusp of their potential engaging in 'hard work' they can do. Children with SEN and disabilities are entitled to be taught by their teacher, not always by a Teaching Assistant. Teachers aim to spend time each day working with all children with SEN, individually or as part of a group.

When allocating additional Teaching Assistant support to children, our focus is on outcomes, not hours: we aim to put in sufficient support to enable the child to reach their challenging targets, but without developing a learned dependence on an adult.

Both schools have a range of interventions available. When considering an intervention, we can select the intervention which is best matched to the child.

Targets for children at SENS are deliberately challenging in the attempt to close the attainment gap between the children and their peers. Interventions are often crucial in closing these gaps, so are monitored closely by both Teaching Assistant/HLTA (Higher Level Teaching Assistant) and the class teacher (at primary) - who monitors progress towards the targets during the intervention and by the SENDCo who monitors overall progress after the intervention.

- Interventions are planned, usually for a time specific period;
- At the end of each blocked session, children's progress towards their targets is assessed and recorded;
- A decision is then made as to whether to continue the intervention, to swap to a new intervention, or to allow the child to demonstrate their transferral of skills in a whole class environment.

The SENDCo's monitor interventions termly to evaluate their effectiveness.

Adaptations to the Curriculum, Teaching and Learning Environment

The Bernwode Schools Trust is disability friendly. Please refer to the Trust's Single Equality Policy including School Accessibility Policy & Plan.

Adaptations to the physical environment in both schools are made, as appropriate, to accommodate children with other needs.

Our classrooms are inclusion friendly; we aim to teach in a way that will support children with tendencies towards Dyslexia, Dyspraxia, ADHD or ASD. This is good practice to support all children but is vital for those who particularly need it. Most of our children access the full National Curriculum, and we recognise achievement and expertise in all curricular areas. As part of normal class differentiation, curriculum content and ideas can be adapted and made more accessible by using visual, tactile and concrete resources.

Access to extra-curricular activities

Our children have equal access to before school, lunchtime and after school clubs which develop engagement with the wider curriculum. Where necessary, we make accommodation and adaptation to meet the physical and learning needs of our children. Class trips are part of our curriculum and we aim for all children to benefit from them. No child is excluded from a trip because of SEN, disability or medical needs.

Staff Expertise

All of our teachers are trained to work with children with SEN. Some are very experienced, and all teachers have access to advice, information, resources and training to enable them to teach all children effectively. We offer training opportunities through access to in-house or Local Authority training, provision of books or guidance towards useful websites and other materials. We have good links with a range of outside agencies with specific areas of expertise and utilise these services where appropriate. The Bicester Partnership of schools buy into the service of an Educational Psychologist.

The SENDCo's at both schools are experienced teachers who are able to offer training, advice and share resources with staff.

The school is able to access or buy-in additional expertise where appropriate.

Children with Social, Emotional and Mental Health needs (SEMH)

Behaviour is not classified as a SEN. If a child shows consistent concerning behaviours, the class teacher or relevant member of Student Support will assess the child's needs, taking into account family circumstances and the child's known history of experiences. If the child's behaviour is felt to be a response to trauma or to home-based experiences (e.g. bereavement, parental separation) we may complete an Early Help Assessment (EHA) with the family and support the child through the process of regular meetings with Team Around the Family (TAF) which identify desired outcomes and how these outcomes can best be achieved.

If parents and the school are concerned that the child may have mental health needs, parents can ask their GP or school for a referral to the Children and Adolescents

Mental Health Service (CAMHs) or other specialists. Schools are unable to refer to a Community Paediatrician, but can support parents with this process, for example, by providing a report from school to a Paediatrician and/or GP.

If the child is felt to have long-term social, emotional or mental health needs, for example with anger management, we offer a range of social skills or therapeutic interventions. These are generally delivered by trained staff/Teaching Assistants who develop good, trusting relationships with the children. Outside agencies may be contacted if this is appropriate.

All children's behaviour is responded to consistently in line with our Behaviour Policy and reasonable adjustments are made to accommodate individual needs.

The schools have a zero-tolerance approach to bullying. We will actively investigate any allegations and, if there is cause, work with both the perpetrator and the victim to improve their own SEMH and their social interaction skills. Please see Bernwode Schools Trust Anti-Bullying Policy.

Transition Arrangements

Transition into and within school

We understand how difficult it can be for children and parents as they move into a new class or a new school. We make an action plan according to the individual needs of the child, to make transitions between classes/settings as smooth as possible. This may include, for example:

- Additional meetings for the parents and child with the new teacher/Academic Coordinator HLTA ;
- Additional visits to the classroom environment/school;
- Where appropriate opportunities to take photographs of key people and places in order to make a transition book;
- Provide additional time for children in small groups/individually to express their concerns and to address them;
- Additional learning opportunities to take place at the new school/setting.

Enhanced transition arrangements are tailored to meet individual needs. We have strong links with our partnership schools within Bicester.

Trustees/Local Governing Body members

It is the statutory duty of the Trustees and Local Governing Body to ensure that the school follows its responsibilities to meet the needs of children with SEND following the requirements of the Code of Practice 2014.

The governor with particular responsibility for SEND meets regularly with the SENDCo to discuss actions taken by the school.

Complaints

The schools work, wherever possible, in partnership with parents to ensure a collaborative approach to meeting pupils'/students' needs.

Any complaints are taken seriously and are heard through the school's Complaints Policy and procedure.

The Local Offer

The purpose of the local offer is to enable parents and young people to see more clearly what services are available in their area and how to access them. It includes provision from birth to 25, across education, health and social care. Oxfordshire's Local Offer is available from the website:

<https://www.oxfordshire.gov.uk/residents/children-education-and-families/education-and-learning/special-educational-needs-and-disability-local-offer>

Equal Opportunities

The school is committed to providing equal opportunities for all, regardless of race, faith, gender or capability in all aspects of school. We promote self and mutual respect alongside a caring and non-judgmental attitude throughout the school.

Review Framework

The policy will be reviewed annually (or sooner in the event of revised legislation or guidance).
